

Our quality policy states:

Our mission is to develop services and innovative solutions that help to reduce the carbon footprint. We do this by increasing the use of renewable energies and improving efficient energy. All of this will be done in a responsible way and taking in account the interests and needs of our staff, clients and suppliers.

Also, in our mission are framed all the values that characterize our organization: Create value to our clients, comply with our commitments and excellence in all we do.

Our vision is to become a reference company in the field of provision of services and solutions in the areas of renewable energy and energy efficiency: testing and verification of facilities, specialized consultancy and project management with international recognition. Our aim is to have lasting relationships with our employees, clients and suppliers in order for continuous development in the creation of value, satisfaction and relationship operational efficiency. All of this knowing that we contribute to leave a better world for future generations.

Conscious of the need for appropriate tools and methods to expand our mission and vision, the organization has developed and implemented a quality management system according to UNE-EN ISO 9001 -2008 international standard

The aim of promoting a culture of continuous improvement is deployed through the concrete objectives that are established and reviewed periodically by the Company board. The management policy is defined below:

Serious commitment in identifying the needs and expectations of our customers in order to achieve their satisfaction.

The commitment to comply with applicable laws and regulations, as well as the requirements to subscribe them.

The continuous development of our program, to ensure the excellence in what we do and innovation capacity.

All our staff accepts the commitment to improve the quality of our delivered products and services internal business processes and to develop a responsible environmental behavior accordingly with the expectations of the company, established in the Company's Mission and Vision where we hope to get.

Director, 1st October 2014
